

PENNSYLVANIA POLITICIAN CONVICTED

West Chester, Pa., Aug. 14.—The jury in Philadelphia's fifth ward case tonight brought in a verdict of guilty against the defendant, Isaac Deutsch, David Bennett, a police lieutenant, and five policemen, who were charged with conspiracy to violate the Sherman law prohibiting office holders from participating in politics and to prevent a fair election. The jury was out about nine hours.

The trial transferred here from Philadelphia on a change of venue asked by the defense, was the outgrowth of a bitter fight between the Deutsch-McNichol and Vane factions of the republican party at the primary election last September for leadership in the Fifth ward.

Deutsch and James A. Carey were candidates for the republican nomi-

nation for select council in the ward. Carey was a Deutsch-McNichol supporter and Deutsch made his campaign on the supposed backing of Congressman W. S. Vane and State Senator Edwin H. Vane and the administration of Mayor Smith.

An attack on Carey's political club the night before the primary and thurgery by New York gunmen who shot and killed George Eppley, a policeman, and blackjacked Carey and Assistant District Attorney Maurer on the spot led to the charges against Deutsch and the other defendants. Eppley, who was on special duty in the ward to prevent disorder at the polls, was killed when he went to the rescue of Carey and Maurer.

Mayor Smith was indicted with the other defendants, but obtained a severance.

AMERICAN CONSUL ASKS SAFE CONDUCT TO RETURN

Washington, Aug. 14.—Consul General Peole at Moscow has turned over his duties to Swedish consulate there, destroyed his code book and asked for safe conduct for himself and the other members of the office to return to the United States.

This information reached the state department in official despatches from Stockholm transmitting the first word heard from Mr. Peole since he reported under date of Aug. 2 joining with the allied consuls in demanding an explanation of a statement by Lenin, the Bolshevik premier, that a state of war existed with the allied nations.

The consuls' despatches tell in detail of events which transpired up to a week ago. Since then Lenin and Trotsky have fled to Kronstadt, and it is regarded as possible here that the Bolshevik government at Moscow has been overthrown, in which case it is believed Peole would remain there on friendly terms with the new regime.

In the absence of Ambassador Francis, who is at Archangel, Consul Peole has been the American representative with the Bolshevik government. He reported that in spite of assurances from Tchitcherin, the foreign commissary, he was apprehensive for the safety of the consulate and called upon the Swedish consul to take charge of American interests after destroying his code book as a supreme precaution.

Peole reported that at a conference with the American, Japanese and Swedish consuls-general on August 6th, Tchitcherin gave assurances that all persons of diplomatic or official character would not be molested, but declared the allied missions would not be permitted to depart as previously promised, and that civil persons arrested would be held as hostages for the lives of Soviet members in territory occupied by the allies.

Peole said he warned Tchitcherin that the allied nations could not be intimidated, and that reprisals by the Soviet government could only result in the individual members of that government being held responsible personally and in the loss by the Bolsheviks of whatever respect it might now have in the civilized world.

NATIONAL RUBBER COMPANY STRIKE IS FINALLY ENDED

Bristol, R. I., Aug. 14.—The plant of the National Rubber Company, closed for nearly a month because of a strike of 1400 shoemakers, resumed operations today. The management said that nearly all of the strikers, with the exception of those who had obtained work elsewhere, returned. The strike was called to enforce demands for a twenty-five per cent. wage increase and reinstatement of discharged employees, but the demands were refused. It was announced, however, that the company would immediately establish a co-operative store at which employees might purchase provisions and other necessities at reduced prices.

FAILURE TO SACRIFICE IS THOUGHTLESS OFFENSE

London, Aug. 14.—(Canadian Press). Existing supplies of food in the British Isles, whether home grown or imported, ought not to be taken by the people as a guarantee of absolute permanent security. Food Controller John R. Clynes informed newspaper men today. Economies of every kind are such a direct contribution to shipping resources, he said, that waste, or even failure to make sacrifices, is at best a thoughtless offense against the national safety. The food difficulties of the world, he pointed out, were increasing, in spite of every effort to avoid them and Great Britain cannot altogether escape from existing conditions.

The British harvest this year, Mr. Clynes added, would be a disappointment to Germany.
